

ENVIRONMENTAL POLICY

Alumasc Water Management Solutions (AWMS), part of Alumasc Group, is the first joined-up brand in integrated water management. Alumasc Group - the leading UK supplier of premium building products, systems and solutions - has been promoting the efficient use, retention, recycling and disposal of water for almost 90 years.

The operations of AWMS will impact on the environment by consuming natural and electrical energy, generating waste and emitting to air.

The top Management team are committed to reducing the impact on the environment by continually reviewing the context of the organisation together with its systems and procedures to ensure compliance to ISO 14001:2015 whilst meeting the specific needs and requirements of all of its Interested parties. This commitment will drive the business goals where we endeavour to:-

- Minimise our impact on the Environmental;
- Prevent or minimise pollution;
- Comply with legislation and other requirements that are relevant to the organisation; and
- Improve its processes and systems

Responsibility for compliance to ISO 14001:2015 and for the reporting of the performance of the organisation has been assigned to QSE Systems Manager however every employee has a duty to respect and implement the Environmental policy and procedures for the processes that are applicable to their area of work and responsibility.

The Management team will regularly review the relevance of the Environmental policy and will promote continuous improvement by auditing its processes and by setting objectives which will be monitored and reviewed at regular Management meetings and other suitable forums.

T.Hogben, General Manager, AWMS
